School Board Policy 5400 - Compensation Plan

It is the policy of Chesterfield County School Board and Chesterfield County Government to establish and maintain a compensation system that is internally and externally equitable. Our goal is to attract, motivate and retain qualified employees at all levels of service while being consistent with budgetary and other fiscal restraints.

General Principles

Compensation of employees will be based on the salary schedules developed in the annual compensation plan. These guidelines are intended to cover most compensation actions for which the Superintendent is responsible. Those not specifically covered, shall be interpreted by the Superintendent or designee. Deviation from specified compensation practices due to exceptional circumstances requires approval by the Superintendent or designee. It is the responsibility of the Office of Compensation and Benefits to establish, maintain, implement and administer the compensation plan. This includes continuous monitoring of compensation paid by external market organizations through market surveys and evaluation of internal equity issues. Adjustments to salaries, re-grades or reclassification of positions are approved by the Superintendent or designee.

Employees shall not be entitled to additional, retroactive experience credit or retroactive salary adjustments as a result of a change in compensation policies, changes in an employee's job, moves to other positions or the employee's failure to include all prior experience at the time of hire. Corrections to salary errors will be retroactive to the position start date within the school year that the error is detected.

The school division uses a variety of tools to ensure proper classification and to determine the most appropriate pay range. Job analysis and evaluation is conducted, considering factors that affect the level of the position, such as complexity, scope of responsibility, level of supervision, judgment and decision making, impact of actions and required knowledge, skills and abilities. Additionally, market analysis is conducted as needed and internal and external equity is considered.

The annual compensation plan adopted by the School Board as a result of the approved budget will provide the general framework for the salary structure. Market rates, or the estimate of wage rates that are generally acceptable in the external labor market for a given job or occupation, are determined from evaluation data from a number of sources, both private and public, by conducting salary surveys with other employers of similar positions or occupations. Positions are assigned to a salary range by completing a job evaluation. This is a process that determines the value of the specific duties and responsibilities of the position. Similar positions are grouped into job classes and assigned a specific salary range on the graded pay plan salary scale.

Salary Increases

Annual salary adjustments and salary structure adjustments are based on the relationship to the external market and the availability of funds. Such an adjustment would usually be a uniform percentage change in all dollar values of all salaries within the grade and granted to every employee who has performed satisfactorily during the previous school year and has not exceeded the maximum of their salary range. This type of adjustment is also known as a general increase or an across-the-board increase. The effective date of the annual increase is usually an employee's start date for the upcoming school year. Annual salary increases for part time teachers and teachers hired at the end of the school year may vary depending on experience placement. Employees, who reach the top of their scale, will receive the approved increase providing there is sufficient funding available.

Teacher Salary Information

Salary Placement

The placement of new teachers on the appropriate salary schedule is administered within the following guidelines:

- a. Credit for teaching experience on a year-for-year basis, is granted when the teaching experience was full-time and
 - in a public school in the United States, including resident public schools;
 - college or university teaching, provided the college/university is accredited by the Virginia State Department of Education;
 - in a U.S. military post dependent school;
 - in an accredited private school in the United States, provided the school is accredited at time of employment by the state Board of Education of that state.
- b. Vocational education teachers, where the requirement calls for occupational work experience beyond the apprentice level, will be given credit for one year of teaching experience for each two years of work experience.
- c. Up to three years of non-job related experience for active service in the U.S. Armed Forces.
- d. Full year credit may be given in any approved experience area, if the individual worked full time at least one-half of the contract year.
- e. Positions that are deemed hard to fill, may be given a full year of credit in an approved experience area through a one year combination of full-time equivalent contractual teaching experience.
- f. At no time can the placement of a new teacher exceed the salary schedule maximum.
- g. High School T-Dean of Students and School Counseling Coordinators are placed one degree level higher on the teacher's salary schedule while assigned to the position (example: High School T-dean of students with bachelor's degree is placed on master's degree scale).
- h. Credit for substitute or apprenticeship experience is not considered credible experience for salary placement.

Compensation for a doctorate degree and/or certifications

- a. Master's or doctorate degree, if degree is related to the job assignment (doctorate in field) and if the degree was awarded by a regionally accredited institution.
- b. Speech Therapists with a master's degree and Certificate of Clinical Competency (CCC) or a doctorate degree related to their job assignment (doctorate in field) and Certificate of Clinical Competency (CCC). The effective date is normally the date of conferral of the certificate or degree within the fiscal year.
- c. Chesterfield County Public Schools guarantees proposed State Contribution for teachers who have achieved National Board Certification. Teachers with National Board Certification will receive a one-time \$5,000 stipend and a \$2,500 annual stipend thereafter for the life of the certificate. Current CCPS teachers who complete the National Board Certification process in January through CCPS and meet DOE eligibility criteria will receive a \$2,500 award administered through the Organizational Development Office.

Movement on Salary Scale for Teachers Employed Less than Full Time

Annual salary increases, for less than full time teachers, may vary depending on experience placement and approval of budgeted increases.

Teacher Travel

If a teacher must travel between schools during a school day, no duty period is to be assigned to this teacher. Any adjustment to this arrangement must be requested by the school principal and authorized by the human resource administrator and instructional director.

FTE Allocation for Split MS/HS Teaching Positions

Teachers will receive additional contractual pay for teaching a class that is: (i) in excess of the number of classes prescribed by the State Board of Education Regulations and (ii) is taught by the teacher for the entire time of the school year for which the class exists. Such additional pay shall be included in the teacher's VRS benefit base. An additional class for middle schools is a seventh class; for high school, it is a sixth class. (Middle School/High School Split Position Staffing: three middle school and three high school classes = 1.1 Full Time Equivalent (FTE). Two middle school and three high school classes = 1 FTE.)

Graded Salary Information

Salary Placement

The placement of new employees on the appropriate salary schedule is administered within the following guidelines:

- a. Placement on the graded pay schedule is generally in relation to experience and internal alignment of existing personnel.
- b. Up to three years credit of non-job related experience for active service in the U.S. Armed Forces.
- c. At no time may the placement exceed the salary range maximum.
- d. Salary offers above the midpoint of the salary range require approval by the Superintendent or designee.
- e. Year for year experience for full-time employment with Chesterfield County Government will be given.
- f. Full year credit may be given in an approved experience area, if the individual worked full-time for at least one-half of the year.
- g. Credit for substitute or apprenticeship experience is not considered credible experience for salary placement purposes.

Graded Pay Scale Compensation for Doctorate/Certifications

Current employees on the graded pay plan below the Superintendent level may receive an in-grade adjustment (typically 5%) for possession of a doctorate degree related to their job assignment (doctorate in field); or for the following approved certifications: Psychologists – National Association of School Psychologists (NASP), School Social Workers – Certified School Social Work Specialist (C-SSWS).

- a. The effective date is normally the date of conferral of the certificate or degree within the fiscal year.
- b. Certificates must remain in effect to maintain the additional 5% adjustment.

Promotion

- a. When an employee is promoted (selected to fill a vacancy in a higher pay grade), the salary is increased by 5% or to the minimum of the new range, whichever amount is greater, and placed on the new pay range. The Compensation Administrator may approve an additional increase with appropriate justification. This is typically done to fairly adjust salary and equivalent experience to current employees within the same position.
- b. Promoted employees are eligible for annual increases. Across the board increases are processed prior to other salary adjustments effective July 1, including salary adjustments due to pay structure movement, position reclassification, promotions and title regrades. If after applying the across the board increase and other applicable salary adjustments, the employee is below the new minimum of the pay grade, the employee's salary will be increased to the minimum of the new grade.
- c. Salary calculations for positions with a different contract length are reflective of the new contract length.
- d. Employees going from a position assigned to the teacher salary scale to a position on the graded pay scale will be considered a promotion starting with grade 40. Grade 39 is considered a lateral move and below grade 39 will be considered a demotion.

Promotional Adjustments for same position going from Middle School to High School

Employees who are promoted/transferred from the following classifications will receive a 5% increase:

- School Counseling Technician going from MS to HS
- Fiscal Technician III going from MS to HS
- Office Manager Senior going from MS to HS
- Assistant Principal going from MS to HS
- Principal going from MS to HS

Transfers to Position in the Same Pay Grade

- a. Employees transferring to another position within the same pay grade will receive no change to their hourly rate of pay.
- b. Employees transferring into a position in the same pay grade are eligible for annual increases.
- c. Salary calculations for positions with a different contract length are reflective of the new contract length.

Demotion/Transfer to Position in a Lower Pay Grade

- a. The salary of the employee will be reduced by at least 5% (based on the hourly rate of pay), and may be reduced by more than 5%, as salary placement will be based on consideration of experience and internal alignment of existing personnel.
- b. The new/reduced salary may not exceed the maximum of the new salary range. The effective date will be the date the action is approved.
- c. Employees transferring into a position at a lower pay grade are eligible for annual increases.
- d. Salary calculations for positions with a different contract length are reflective of the new contract length.

Graded Salary Information...continued

Acting Pay

An employee may be temporarily assigned to a higher level position which is vacant or in which the incumbent is unavailable to perform the duties of the position due to illness or other extenuating circumstances. "Acting Status" is normally for a period exceeding 12 workweeks and less than one year in duration. Acting pay will result in a 5% increase, or the minimum of the new grade. The employee returns to his/her former pay level at the end of the assignment. Acting pay for certain positions, such as Food Service employees may be granted for less than the minimum of 12 weeks. Approval of acting pay for less than 12 weeks must be approved by the Compensation Department designee. Acting pay assignments are temporary, pending recruitment and selection or return of the current incumbent, and shall not be used for promotional purposes.

Reclassification

A reclassification reflects a substantial change in the level of duties and responsibilities assigned to a position and results in the reassignment of a position from one salary grade to another. An increase in volume of work does not warrant the reclassification of a position. Reclassification requires the approval of the Superintendent or designee. The salary for a reclassified employee is determined by applying the guidelines for "Promotion" or "Transfer to a Position in a Lower Pay Grade", as appropriate.

Regrade

A regrade is the change in pay grade assignment for a job classification and effects all positions assigned to that classification. Regrades are recommended to adjust the range assignment with comparable jobs in the labor market or for internal alignment within the organization. Regrades are recommended by the Office of Compensation and Benefits and require the approval of the Superintendent or designee. The employee's rate of pay is not affected by a regrade unless the rate is below the minimum of the new salary range. The effective date of a regrade is normally the contract start date of the next school year.

Special Salary Adjustments

Salary increases other than for new hires, promotions, or annual pay raises fall under the category of special salary adjustments. The adjustments are recommended by the Office of Compensation and Benefits and require the approval of the Superintendent or designee. Any such salary adjustment is subject to available funds. Special salary adjustment will typically be less than a 5% increase.

Permanently Increased Responsibilities

Special salary adjustments for permanently increased duties recognize new assignments which require greater skills, new knowledge, a greater level of authority and responsibility, or other changes in duties which enhance the value of a position to Chesterfield County Public Schools, but do not qualify for a reclassification of the position as determined by the Office of Compensation and Benefits.

Increased workload with the same or similar duties does not justify a special pay increase. In the case of non-exempt employees, increased workload is compensated through payment of overtime or accumulation of compensatory leave time. In the case of exempt employees, workload fluctuations are considered a normal part of a job. Exempt employees do not qualify for overtime compensation.

Assignments which justify special salary adjustments for duties are typically the result of departmental reorganizations or job consolidation. They may also result from significant functions or programs being given to a department to perform.

Internal Salary Equity

In determining internal salary equity, consideration is given to factors including, but not limited to, supervisory responsibilities, external competitiveness, special knowledge, skills, or abilities required, and/or length of service. Salary equity does not mean that all employees in the same classification have identical pay.

Re-employment within Six Months

An employee returning to a position within the same classification on the graded pay plan within six months from separation or the beginning of an approved leave of absence will return to the salary assigned at the time of separation.

Re-employment Beyond Six Months

Employees returning to CCPS following a period of separation exceeding six months will be placed according to the guidelines for "New Employee Salary Placement".

Graded Salary Information...continued

Reinstatement after Completion of Approved Leave of Absence

An employee returning to a position within the same classification within one year from the beginning of an approved leave of absence will return to the salary assigned at the time of separation. Employees returning to a position on a different salary grade will be placed according to the guidelines for promotion or demotion. Employees who return to employment after completion of an approved leave of absence will receive any annual salary increase approved by the School Board provided: (1) he/she completed more than half of the contract year at time of departure, and (2) other similarly classed employees receive an increase.

Employee Calendar Months

Employees are paid on either a 10, 11, or 12 month calendar. The work months that correspond to each calendar are as follows:

10 Month Calendar: Pay period is from September 1 through August 31

11 Month Calendar: Pay period is from August 1 through July 31

12 Month Calendar: Pay period is from July 1 through June 30

Pay Cycles for Various Contract Lengths

All Chesterfield County Public School employees receive contract/assignment pay spread over 24 pay periods, regardless of their position contract length. It is important to note, however, that pay cycles change when an employee moves to a job position with a different contract length. Such change may result in a month's lapse in pay. If an employee's contract length changes from 12 months to 11 months; from 11 months to 10 months; or from an extended contract to a regular contract the employee should contact the Payroll Office to determine impact on the pay cycle.

Example: An employee changes from a 12 month contract position to an 11 month contract position. While working the 12 month position, the employee receives 24 paychecks prorated from July through June. When working the 11 month position, the employee will receive 24 paychecks prorated from August through July. There is a 1 month lapse in paychecks for the month of July.

Position Analysis, Evaluation and Development

Position descriptions are developed by a position's supervisor and maintained in the Office of Compensation and Benefits. The position description is an important management tool for communicating with employees, determining the distribution of work and for organizational design. It is used to inform performance appraisals, recruitment, salary surveys, evaluations and job analysis. In addition, it is used for determining Fair Labor Standards Act (FLSA) exemptions, accommodations under the Americans with Disabilities Act (ADA) and to assist in the processing of Workers Compensation and Disability Retirement requests. It is important that position descriptions accurately reflect the duties and responsibilities expected of employees assigned to respective position classifications. Accordingly, the school division has implemented procedures to ensure that position descriptions are periodically reviewed.

- a. As a part of the recruitment process, the position descriptions of vacant positions are reviewed prior to position advertisement. A position review may also be requested when an administrator/supervisor determines that the position description no longer accurately reflects the duties and responsibilities of the position. See Position Classification Review – Filled Position for details.
- b. Job templates and assistance in writing or revising a job description are available through the Office of Compensation and Benefits.

Position Classification Review – Vacant Position

When there is an indication that a vacant position is not properly classified, a position classification review may be requested. To initiate a position classification review, the supervisor of the vacant position must submit a Position Action Form (PAC), approved and signed by an appropriate Chief level position, along with a revised job description and an organizational chart, to the Office of Compensation and Benefits. The Office of Compensation and Benefits shall perform a job evaluation and determine the appropriate position classification.

Position Classification Review – Filled Position

When there is an indication that a currently filled position is not properly classified, a position classification review may be requested. To initiate a position classification review, the supervisor of the position must submit a PAC form, approved and signed by an appropriate Chief level position, along with a revised job description and an organizational chart, to the Office of Compensation and Benefits. A position may require reclassification if the duties have changed significantly over a period of time. The Office of Compensation and Benefits shall perform a job evaluation and determine the appropriate position classification.

Fair Labor Standards Acts

The Fair Labor Standards Act (FLSA) establishes minimum wage, overtime pay, record keeping, and child labor standards affecting full-time and part-time workers in the private sector and in Federal, State, and local governments. Under the FLSA an employer must pay employees at least the minimum wage of \$7.25 an hour and additionally compensate non-exempt employees who physically work in excess of 40 per week at an overtime rate. The overtime premium is one and one-half times the regular rate of pay or compensatory time at the same rate for every overtime hour worked. Non-exempt employees who have worked more than their normal hours, but less than 40 for the week, are given compensatory time for up to 40 hours or are paid at their regular rate of pay if the compensatory time cannot be taken within 30 days.

Employees who are determined to be professional, managerial, or executive by definition outlined within the statute, are not covered by the FLSA and are referred to as “exempt” employees, meaning they are exempt from the statute requirements.

Job titles and their associated FLSA status are listed under the Graded Classifications table.

Non-Exempt Employees

- a. are prohibited from working more than one full-time or part-time position, except as approved by the Office of Compensation and Benefits in accordance with School Board Policy Appendix A Section 9.
- b. are prohibited from working a temporary work assignment (TWA) during the contractual/normal annual work assignment period.
- c. are permitted to do sporadic work typically performed in after school athletic events as defined by the FLSA guidelines (i.e. ticket taker). Payment must come from the Student Activities Funds. The time worked must be reported on the employee’s regular timesheet and submitted to payroll for payment and is subject to overtime.
- d. may not volunteer for any position without compensation (i.e. a club sponsor who normally does not receive a stipend).
- e. are not permitted to work on days outside their work assignment without additional compensation.
- f. Shall be compensated at the regular rate or with compensatory time for hours up to 40 and overtime/compensatory time at time and one half the regular rate of pay for all hours worked beyond 40 per week. This includes work done after school hours.
- g. shall not work overtime without the express approval of the supervisor.
- h. must keep an accurate time sheet of all hours worked.

Principal/Supervisor Requirements

The requirements of the FLSA are unwavering; non-exempt employees must be paid overtime pay or granted the required compensatory time off for any time worked in excess of forty hours per week. No exceptions. Uncompensated overtime work increases the likelihood of compensatory and punitive damage claims levied against the school system. Principals and/or supervisors who do not follow these guidelines may be subject to disciplinary action. Principals and supervisors must monitor the employees’ work, ensure that overtime provisions of this policy and the FLSA requirements are followed and ensure that all employees are compensated for any overtime worked.

Managing the Work Week

Principals or supervisors may need to adjust daily schedules to prevent non-exempt employees from being paid additionally at their regular rate or at the overtime rate. One way commonly used to avoid overtime pay or compensatory leave is to rearrange the employee’s work schedule. For example, if secretarial assistance is required in the evening for a special situation such as kindergarten enrollment, the administrator may allow an equal number of hours off that same week, thus ensuring that the total number of hours worked is the normal 40. Some situations will allow compensatory time to be taken the following week without regard to overtime requirements.

Example:

An employee’s normal schedule is 7 hours per day/35 per week. Monday and Tuesday the offices were closed due to inclement weather. The employee worked 9 hours and 30 minutes on Wednesday, 8 hours and 30 minutes on Thursday and 11 hours on Friday, thus he/she worked an additional 8 hours during those three days.

The two days the offices were closed do not count towards the 40 hours for overtime calculation purposes, but the extra hours the employee worked entitle him/her to compensatory time for the 8 additional hours actually worked. The principal has adjusted the employee’s schedule the following week where he/she will leave 2 hours early Monday through Thursday to compensate for the additional hours worked the prior week.

Fair Labor Standards Act...continued

Compensatory Time

In lieu of overtime compensation, non-exempt employees shall receive compensatory time for up to 40 hours and at a rate of not less than one and one-half (1.5) hours for each one hour of overtime worked beyond 40. The compensatory time agreement form (Form No. AAA-FLSA02-located on CNET must be completed, signed and kept on file for the employee.

Compensatory time must be taken within one month from the time the work was completed. As long as the requested use of the compensatory time does not unduly disrupt the operation of the school division, the employee's request to use the time shall be granted as requested. If the compensatory time is not used within thirty days, it must be converted to paid overtime and be submitted to the payroll department via the employee's timesheet. Compensatory time log sheets are located on CNET.

Compensatory Time Sample Form

Form No. AAA-FLSA02

COMPENSATORY TIME AGREEMENT

In accordance with the Fair Labor Standards Act, Chesterfield County Public Schools shall grant employees compensatory time off in lieu of monetary compensation for hours worked in excess of the assigned work schedule. I understand that compensatory time will be granted at straight time for all hours worked up to 40 hours and time and one-half for all hours worked in excess of 40 hours per week. I further understand that the compensatory time must be taken within one month in which the work was completed or documentation will be submitted to payroll for payment of the compensatory time not taken.

Employee signature/date

Employee social security number

Refer to the back of this form for a worksheet that should be used for recording approved compensatory time.

Compensatory Time Earned			Compensatory Time Taken		
Date	Hours	Approved	Date	Hours	Approved

If compensatory leave has not been taken within 30 days of the time it was earned, please use the following procedures to process the time for payment:

1. Resubmit the time sheet for the affected week marked "REVISED".
2. For the day the compensatory leave was earned, place an "X" across the hours in the compensatory leave column and enter the hours that have not been taken as compensatory leave in the paid overtime column.

Fair Labor Standards Act...continued

Time Sheets

The FLSA requires that all non-exempt employees keep a timesheet. CCPS time sheets are located on CNET and are the only approved form for timekeeping. The time sheet is a log of hours actually worked each day during a 7-day week. Many school employees are not normally scheduled for a full 40 hours per week; however, a single time sheet must be kept by each non-exempt employee showing all hours worked at all assignments. Time worked beyond the normal hours per week is compensated with compensatory leave or compensated at the regular rate of pay for the hours worked up to 40. Beyond 40 hours worked, the employee is eligible for compensatory leave or overtime pay at time and one-half.

Copies of the time sheets must be kept in a file at the work site and are subject to inspection by the Wage and Hour Division of the Department of Labor. It is important to remember that the law requires payment at the time and one-half rate *only when the hours worked exceed 40*. If the employee uses paid leave time (sick, annual, or personal) or if there is an inclement weather closing or holiday during the workweek, those hours do not count toward the initial 40.

Example:

Maintenance workers are needed to work six hours on Saturday to finish a project. With the additional work on Saturday, the actual hours worked were 46 hours for the week. These workers will be paid or given compensatory at 1 ½ times the regular rate of pay/compensatory time for the six additional hours they worked beyond the 40.

One of the maintenance workers took two days of paid sick leave on Tuesday and Wednesday of that week. This employee worked six hours on Saturday as well. Because the paid leave time does not count towards 40 for overtime purposes, this employee is not eligible for the overtime rate of 1 ½ times. The employee will be paid at his/her normal hourly rate for the actual work hours of 30 and 16 hours of paid time off.

Please note that CCPS follows the 7 minute rule when reporting time on the timesheets. For example, an employee arrives for an 8 am shift at 8:07 their time would count them at here at 8 am. However, if they arrived at 8:08 am it would round their time to 8:15 am.

Leave Slips

All employees must complete leave slips due to absences for any reason. All leave requests must be approved and signed by the employee's supervisor as well as department director where indicated on the form. Approval for leave before or after holidays will be based on operational or administrative needs. Leave taken on parent/teacher conference days is discouraged except in emergency situations or when required for SRP participants working only during instructional days.

Wait Time

Time spent by the employee while "waiting" to work is typically paid time and considered hours worked. The most common example of this includes a bus driver waiting for children at a field trip or athletic event. Employees waiting at the loading dock for arrival of the delivery truck are likewise "on the clock."

Special Education Instructional Assistants who ride the bus as part of their assignment will be paid for the time the Assistant is engaged in the principal activity of aiding the assigned student(s) on the bus, i.e. starting with the pickup of the assigned student and ending with the drop off of the assigned student. The Instructional Assistant is not paid for travel time or mileage to or from the starting or ending point of a bus route.

Timesheet Notes

1. All non-exempt employees are required to record the hours actually worked each day during a 7-day week.
2. Starting and ending times should be reflective of the actual times the employee is working.
3. Copies of all timesheets must be kept on file at the work site in accordance with the CCPS records retention and disposition schedules.
4. Timesheets on which paid overtime is reported must be forwarded to the Payroll Department on a weekly basis.
5. Non-exempt employees located at a school that are considered to be on the clock or on call during their lunch break, would only record one start time and one finish time each day, not indicating the lunch break.
6. Non-exempt employees located at buildings other than schools generally are considered to be off the clock during lunch breaks and would consequently report more than one start and finish time for each day, which would include the start and end of the lunch period.
7. A funding source (operating fund, grants fund, or activity funds) must be indicated on the timesheet where any overtime payment is required. If the funding source is a grant, an explanation of the work performed during overtime must be provided. If the funding source is activity funds, please indicate in the funding source box (SAF- School Name). The approving administrator will be notified by the Payroll Department of the total amount due. Do not remit an activity fund check until this notification has been received.
8. It is the employee's responsibility to record all time worked and to obtain the appropriate approvals prior to submitting the timesheet to the timekeeper.
9. A temporary work assignment (TWA) must be completed for any employee performing work outside of his or her normal annual work assignment. For example, a technology resource assistant who comes to the school during the last week of August to set up the computers for the class and has not started his/her work assignment for the upcoming school year.
10. Employees must also complete leave forms for reporting absences for time and attendance purposes

Lunches and Breaks

- Rest periods are not required but if given may be paid or unpaid depending on the circumstances. Rest periods of 20 minutes or less are counted as time worked in all circumstances. The employee is not considered "off the clock" for this amount of time and will be paid for the break.
- School employees normally have a lunch period of 20 to 30 minutes "on the clock" because of the unique nature of the work within the school building itself. In other words, the lunch break of 30 minutes is considered paid time. Normally, school personnel are on duty or on call during lunch. Even when an employee is on lunch break, he/she typically is available to handle unexpected situations. All personnel supervising students during lunch are "on the clock." In some situations, it may not be feasible to provide a break.

Example: An instructional assistant works from 8 a.m. to 3:30 p.m. and takes a 30 minute lunch but is on call during lunch and cannot leave the premises. The employee will be paid for 7.5 hours for the day.

- Employees who work in a non-school location and are required to work 8 hours a day may take up to one hour for lunch (breaks are counted towards the lunch hour). 30 minutes are paid and 30 minutes are unpaid. Scheduled hours of work will encompass 8.5 hours, which includes the hour for lunch/and or breaks that equal the same.
- It is expected that the employee take at least a 30 minute lunch daily. Occasionally, unforeseen operational issues may cause an employee not to be able to take at least a 30 minute lunch. If this happens, the supervisor will adjust the non-exempt employee's schedule accordingly so the hours worked for the day do not exceed 8.
- Lunch periods that are waived are not permitted to be saved or used later. If the break is not taken in the day, it is lost.
- Breaks or lunches should not normally be used to enable an employee to arrive late or leave early. Lunch times are established by the supervisor. For operational reasons lunch times may not necessarily fall in the middle of the work period.
- Employees who request the use of paid leave, who have worked at least half their normal work day, and who leave at the start of the lunch period will be assessed leave for the remaining hours of the work day after the lunch period.

Summer Sports Camp Income/Expense Worksheet

The primary goal of summer athletic camps is to provide sound instructional programs to young people. The second goal is fund raising. All summer athletic camps are non-profit and must be carefully administered to ensure the highest quality program at a reasonable cost to students. The following are requirements to hire/compensate summer camp employees:

- Temporary Work Assignments (TWA) are required for all camp employees.
- The hourly rates indicated below are the maximum allowable per position. Minimum wage is \$7.25 per hour.
- Total hours – Camp Directors’ hours are based on twice the total hours of camp operation. All others may receive one additional hour for each day of operation, where applicable, for camp preparation and closing.
- Nepotism – The employment of spouses or other relatives is prohibited by the State and Local Government Conflict of Interest Act. All employment will be consistent with these requirements.

Temporary Work Assignments (TWA) Procedures

Step 1: Hiring supervisor/administrator - Gather the information required for the TWA and provide it to the designated creator in the school or department.

- The TWA webform must be completed 10 work days prior to the employee's requested first work day. Workflow will route the request for required approvals.
- No work is to begin until Human Resources Office approval notification is received via email.
- The maximum working hours for a TWA is 28 hours per week. This limit is generally applicable to all employees except those that are full-time and have an exempt FLSA status.
 - (a) If the request involves a current employee of Chesterfield County Public Schools, only the employee's ID or social security number is needed in Section 1 of the webform. The system will populate the remaining information.
 - (b) If the request involves an individual who is NOT a current employee of Chesterfield County Public Schools, the entire section 1 of the TWA webform should be completed. Additionally, before the individual may begin work, he/she will be required to report to the Human Resources Office for pre-employment processing (Please refer to the HR CNet site for current requirements). Schools and Departments should not have individuals complete employment paperwork at their respective sites.

Step 2: School/Department Approval

- The TWA request is routed through workflow to all the appropriate individuals for approvals. Workflow then routes the request to the Office of Compensation and Benefits.

Step 3: Office of Compensation and Benefits - Pay Rate Establishment and Approval

- The Office of Compensation and Benefits verifies or establishes the rate of pay, designates whether the request is for a non-exempt position and falls under the Fair Labor Standards Act, and approves or denies the request.
- If the request is approved, workflow then routes the request to the Office of Management and Budget or the Finance and Grants Office.

Step 4: Office of Management and Budget/Finance and Grants Office - Funding Approval

- The Office of Management and Budget or Finance and Grants Office certifies the available funding and approves the request. Workflow then routes the request to the Human Resources Office.

Step 5: Human Resources Office - Approval and Data Entry

- The Human Resources Office receives the request and then obtains/verifies all necessary employment paperwork.
- Once completed and approved, emails will be sent out to both the creator and approver of the TWA. Again, no work is to begin until Human Resources approval notification is received via email.
- Human Resources Systems then enters the data into OneSolution and forwards the TWA to the Office of Finance for payroll processing.

Step 6: Office of Finance - Authorizing Payment

- The rate of pay for temporary work assignments reflects either an hourly or a flat rate of pay; therefore, the administrator will authorize payment either on a pay period basis for hourly work or on a one-time basis when a flat rate job is completed.
 - a. Hourly Rate of Pay: Hours worked by TWA employees must be approved on the CCPS Temporary Work Assignment Time Sheet (form FIN.003) and submitted weekly by the administrator to the Office of Finance within established payroll cut off periods.
 - b. Lump Sum Payment: When assignments based on a flat rate of pay are completed, the administrator must forward to the Office of Finance a CCPS Time Sheet (For "Lump Sum Payment" – Temporary Work Assignment use only) (form FIN.004) certifying completion of the assignment and authorizing payment.

NOTE: When payment is made from Student Activity Funds, a monthly bill will be sent from Payroll and the school check should be processed for the invoice amount. This amount will include an additional 7.65% for the employer's portion of FICA tax.

Additional Notes Regarding TWAs

- All non-exempt employees employed by The Chesterfield County School system are covered by the Fair Labor Standards Act (FLSA). Non-exempt employees may not work a TWA during their contract period. For more information on non-exempt employees please refer to the information pertaining to the Fair Labor Standards Act on page 6 located in this booklet.
- Virginia High School League lump sum payments may be submitted directly to the Office of Finance for payment.
- Student activity funded activities paid as a lump sum, not listed on the temporary work assignment rate schedule, that meet FLSA and HR criteria, and approved by the principal and directors of elementary, middle or high school, may be submitted directly to the Office of Finance for payment.
- Student workers must be assigned an hourly rate and may not be paid a lump sum.
- All rates must be approved by the Office of Compensation and Benefits. Refer to the rate schedule for temporary work assignments on page 36 for the most common areas. Areas not listed on the rate schedule must be pre-approved by the Office of Compensation and Benefits prior to being offered or used.
- Nepotism: The employment of spouses or other relatives in certain reporting structures is prohibited by the "State and Local Government Conflict of Interest Act". All employment will be consistent with these requirements.
- The TWA /webform request may be denied at any point in the approval process for various reasons, such as incorrect dating or when a worker is already under a TWA/another pay assignment, etc.

Intra and Extracurricular Activities

Employees may receive a monetary stipend for athletic and other extracurricular activities. Such monetary stipend shall be separate and apart from the employees' benefits base pay (not included in determining retirement earnings). Stipends shall be compensated in accordance with the established teaching, athletic and academic salary schedules. When performing athletic and other extracurricular activities, employees may only be compensated for working one job at a time.

Teachers with a National Board Certification will receive from the Commonwealth of Virginia, a one-time \$5,000 stipend and a \$2,500 stipend thereafter for the life of the certificate. CCPS guarantees proposed State contributions. Current CCPS teachers who complete the National Board Certification process through CCPS and meet DOE eligibility receive a \$2,500 award administered through the Professional Development Office.

Graded Pay Scale 2019-2020

The annual is based on a 12-month, 260 days/year, 8 hrs/day calendar or 2080 hours per year.
For positions working less than 2080 hours, refer to the alphabetical listing of positions.
