

# Summer Reading Middle Schools

Reading is a simple and enjoyable way for students to boost their brainpower, so Chesterfield County Public Schools encourages students to read during summer vacation.

Research shows that what students read is less important than how much they read. A study by Barbara Heyns found that children who read at least six books during the summer maintained or improved their reading skills, while kids who did not read saw their skills slip by as much as an entire grade level.

Summer reading is more about practicing the enjoyable habit of reading than it is about challenging students academically.

Many organizations compile lists to make it easy for students and their parents to self-select books for summer reading. Chesterfield County Public Schools does not endorse any specific titles on the lists. Not all parents may consider all of the books on these sites to be appropriate, so parents are encouraged to review the books to determine which books are appropriate for their children or visit a county library to speak with a librarian. Check out the links below for summer reading resources and lists.
