

Food and Nutrition Services

Breakfast and Lunch Services

September 8 will start the new school year.

Here is what you need to know.

- **The school division will offer daily meals to all students enrolled in Chesterfield County Public Schools.**
- Families may apply for approval to participate in the federal free and reduced meals program online at myschoolapps.com; however, students will not receive this benefit until the application has been approved. If a student was approved last year for free meals, the family has until early October 2020 to complete a new application.
- Chesterfield County Public Schools-provided meals will meet all requirements of the National School Breakfast and Lunch programs and will include locally grown produce.
- **Paid meals will need to be prepaid using www.myschoolbucks.com.** (The Food and Nutrition Services team will pay service fees.) For safety and health reasons, no cash will be accepted curbside or at pickup locations. **No charging of meals will be allowed.**
- **All meals will need to be preordered by Wednesday at 2 p.m. for the following week.** This will ensure meals will be ready for families at pickup. Students do not need to be present to pick up.
- Meals will be available at all schools curbside and in select locations for offsite pickup. Times and locations will be posted on the order form and website. These are subject to change.
- An order form will be available for preordering. There also will be a phone number to call for assistance.
- Menus are available now by downloading the Mealviewer app for your iPhone or Android.
- Parents with students in more than one school will be able to select one location for pickup. To speed up pickup, please have your student's school ID number available.
- The first order form will be available August 26 with a due date of September 2. First phone orders must be in by 2 p.m. on September 2.
